Description

Personality

Character Traits

low light vision Vivacious Gnome: You have an incredibly strong connection to the positive energy that flows through the First World, making it harder to attack your force with negative energy. You gain negative resistance equal to half your level (minimum 1). When you have the doomed condition, the condition affects you as if i value was 1 lower than it actually is (doomed 1 has no effect, doomed 2 causes you to die at dying 3, and so on).
